<b>Especially suitable for</b>	house security	security large house	Home control, security + burglaryprevention large house	security large house without telephone landline	Home control, security + burglaryprevention large house without telephone landline	Home control, security + burglaryprevention large house
Connections required for base unit	power (230V) and telephone	power (230V) and telephone		power (230V)		power (230V) and telephone
Back-up battery	4x AA	7.2V/1.5Ah battery pack				
<b>Contents set</b>						
Base unit	1	1				
Motion sensor	1	2				
Door/window sensor	1	1				
Remote control	1	1				
PSTN Interface	1	1	1	optional	optional	1
GSM module	0 (not possible)	optional	optional	1	1	1
X-10 Interface	1	optional	1	optional	1	1
Enclosed sensors	wireless	wireless				
<b>Available accessoires</b>						
Door/window sensor	DS90				DS831	
Motion sensor	MS90				MS845	
Smoke detector	SD90				SD834	
Keyfob remote control	KR21				KR814	
Remote control	SH624				RC840	
Indoor siren	PH7208					
Outdoor siren/-flash					OS826	
Water leakage detector					WD861	
Low temperature sensor					TS863	
Glass break detector					GB843	
GSM module		GSM800				
X-10 module		HA810		HA810		
Panic remote control				PR811		
Keypad wireless				WK820		
Keypad wired LCD				HK855		
Booster/repeater				RP835		
External microphone/speaker				IP850		
Wireless indicator				SI825		
<b>Options</b>						
Zone extension possibilities	2 x wired, 30 x wireless *	1 x wired, 32 x wireless *				
Max. number of wireless keyfobs/keypads	16	23				
Repeater possible for extra range	no	yes, max. 4				
Possibilities for expansion Home Automation	yes	yes				
User codes	1	32 (incl. master, temporary, involuntary and telecontrol code)				
Event log	no	256 events				
Fully activating alarm	yes	yes**				
Perimeter alarm	yes	yes**				
Activating alarm partially	no	yes**				
Entrance delay	yes, for entire system	yes***				
Alarm notifications	2 (burglary/fire, panic)	8 (burglary, fire, on/off, service, power, Peripherals, RF jamming, medical)				
Monitoring station functionality	no	yes				
Two-way communication via base unit possible	no	yes				
Protected against RF jamming	no	yes				
<b>Operating</b>						
- on the base unit	yes	yes				
- with remote control (in/around your home)	yes	yes				
- by landline telephone or GSM	yes	yes				
- via hardware LCD keypad	no	yes				
- via SMS	no	no			yes	
<b>Alarm</b>						
- siren	yes	yes				
- by telephone (for instance to GSM)	to 6 numbers max.	3x emergency room communication, 3x with pre-recorded text, 1x live communication with central unit				
- SMS	no	no			yes	
- Programmable relays output		yes				
- X-10 commands (for instance switch lighting)	yes	no	yes	no		yes
<b>Home Automation</b>						
House codes	1	n.a.	1	n.a.		1
Unit codes	16	n.a.	16	n.a.		16
Number of modules addressable when switching on/off	2 (for all events the same modules)	n.a.	16****	n.a.		16****
Number of modules addressable when alarm is triggered	2 (for all events the same modules)	n.a.	16****	n.a.		16****
Number of modules controllable by telephone	16	n.a.	16****	n.a.		16****
Number of modules with key chain remote	2 (for all events the same modules)	n.a.	2 (zelf te kiezen)	n.a.		2 (zelf te kiezen)
Behaviour after activating	fixed (always activated)	n.a.	selectable (5 sec., 30 sec., 1 min., 2 min. or always activated)	n.a.		selectable (5 sec., 30 sec., 1 min., 2 min. or always activated)
Built-in transceiver function	yes	n.a.	yes, secured only	n.a.		yes, secured only

Smart Solutions at Home

\* Several wired sensors (1 zone) can be connected to a wireless door/window sensor (1 sensor).

\*\* per level full freedom of choice of sensors

\*\*\* can be selected for each security level and for each zone (activation when leaving, second entrance delay, follow-me, restart exit delay)

\*\*\*\* can be activated/deactivated for each module separately
