

SS12

EN Slimline wireless double switch

- Ultra thin stick X-10 switch
- Can be mounted everywhere
- Wireless control of 2 X-10 addresses
- Dimensions: 80 x 80 x 20 mm

Very thin elegant wireless switch. Ideal solution in situations where 2 extra switches are desired, without running extra wires. Can be attached to walls, glass, doors, tables etc. Sends a high frequency signal through walls and floors. Totally wireless: battery operated. Switches 2 modules and is equipped with a dim function. Use the SS12 as a central control panel for your Marmitek installation!

DE Superflacher drahtloser Schalter

- Ultradünner X-10 Klebeschalter
- Kann überall angebracht werden
- Drahtlos 2 Module steuern
- Abmessungen: 80 x 80 x 20 mm

Eleganter, superflacher drahtloser Schalter. Ideale Lösung in Situationen, wobei ein (zusätzlicher) Schalter erwünscht ist, ohne Leitungen zu verlegen. Kann auf Mauern, Glas, Türen, Tischen usw. angebracht werden. Sendet Hochfrequenzsignale durch Decken und Wände. Völlig drahtlos: Batteriebetrieben. Schaltet 2 Module und ist mit einer Dimmtaste ausgestattet. Verwenden Sie den SS12 als zentrale Bedienungseinheit für Ihre Marmitek Anlage!

FR Interrupteur sans fil slimline

- Interrupteur adhésif X-10 ultraplat
- Peut être placé partout
- Activer 2 modules sans fil
- Mesures : 80 x 80 x 20 mm

Interrupteur sans fil ultraplat élégant. Solution idéale pour les situations demandant un interrupteur (additionnel), sans poser de câbles. Placer sur murs, vitre, portes, tables, etc. Transmet des signaux de haute fréquence à travers murs et plafonds. Entièrement sans fil : alimenté par pile. Passe 2 modules et est pourvu d'un bouton code. Utilisez le SS12 comme panneau de commande central pour votre installation Marmitek !

ES Interruptor inalámbrico Slimline

- Interruptor adhesivo X-10 ultrafino
- Puede colocarse en cualquier lugar
- Manejar inalámbricamente 2 módulos
- Dimensiones: 80 x 80 x 20 mm

Interruptor inalámbrico ultrafino y elegante. La solución perfecta para situaciones en las que se necesita un interruptor (adicional) sin tirar cables. Puede colocarse encima de muros, vidrio, puertas, mesas etc. Emite señales de alta frecuencia a través de muros y techos. Completamente inalámbrico con alimentación de pilas. Conmuta 2 módulos y dispone de un botón para regular la luz. ¡El SS12 puede utilizarse como panel de manejo central para su Marmitek instalación!

IT Interruttore senza fili Slimline

- Interruttore adesivo X-10 ultrasottile
- Può essere montato dappertutto
- Controllo senza fili di 2 moduli
- Dimensioni: 80 x 80 x 20 mm

Interruttore senza fili ultrasottile ed elegante. La soluzione ideale per le situazioni che richiedono un interruttore (extra), senza stendere fili. Da montare a pareti, vetro, porte, tavoli, ecc. Trasmette segnali ad alta frequenza attraverso pareti e soffitti. Completamente senza fili: alimentato da pile. Commuta 2 moduli e provvisto di un tasto dimmer. Usate l'SS12 come pannello di comando centrale per il vostro impianto Marmitek!

NL Slimline draadloze schakelaar

- Ultradunne X-10 plakschakelaar
- Kan overal worden geplaatst
- Voor het aansturen van 2 X10 adressen
- Afmetingen: 80 x 80 x 20 mm

Superdunne elegante draadloze schakelaar. Ideale oplossing voor situaties waar een (extra) schakelaar gewenst is, zonder leidingen te leggen. Aan te brengen op muren, glas, deuren, tafels, etc. Zendt hoogfrequent signalen door vloeren en muren. Geheel draadloos: batterij gevoed. Schakelt 2 modules en voorzien van dim functie. Gebruik de SS12 als centraal bedieningspaneel voor uw Marmitek installatie!

SS12

The slimline wireless wall switch (SS12) lets you control one module from any where in your home. The SS12 is normally used with the TM13 transceiver which passes through all codes from the wireless wall switch onto the powerline to control X-10 modules. You can also use the wireless wall switch with the SC9000 X-10 security system instead of the TM13.

- Lets you control one X-10 module in your home with ON /OFF / BRIGHT / DIM.
- Sends wireless RF signals to the transceiver module TM13 or to the SC9000 X-10 wireless security system.
- Compatible with the full range of X-10 home automation products
- Use the wireless wall switch anywhere you want to control a device that does not have a wall switch.
- Place one on the wall near your bedside.
- Place one near your entrance.
- Use them with the universal computer interface CM15Pro to provide "Virtual Wiring" (macros).
- Control all your table lamps in the living room from one location.

Technical data

Supply:	1 x A23 12V Alkaline Battery (supplied)
RF range:	Up to 30m free field, up to 20m through walls and ceilings
RF frequency:	433,92 MHz
RF power:	10mW
X-10 Key codes:	On, off, dim, bright
Ambient temperature:	- 10° C to + 50° C (operation) - 20° C to + 70° C (storage)
Dimensions:	80 x 80 x 20 mm

System requirements

Needs a transceiver to control a module.
